TEACHING APPROACH:

In the humanistic tradition, inspired by Carl Rogers' work, students use issues and ideas as the basis for exploring the content of the curriculum, and the teacher serves mainly as a facilitator of classroom discussion—rarely "telling" students what they should know, but probing, questioning, hypothesizing, challenging, and reframing their comments in an effort to help them analyze and understand; in addition to transmitting critical pieces of content necessary to our curriculum. This approach focuses on **issues and experiences**, rather than facts and theories and assumes that a body of knowledge consists of questions as well as answers. The essence of this tradition lies in the belief that we are all teachers and that we will learn from one another. Each student's experiential background, value system, worldview, reflections, and knowledge are valuable assets for understanding the course content. A variety of perspectives and opinions will be strongly encouraged.

SYLLABUS DISCLAIMER:

This syllabus is not a contract. The instructor reserves the right to alter the course requirements, schedule, and/or assignments based on new materials, class discussions, or other legitimate objectives. Students will be given notice of relevant changes in class or via e-mail.

TECHNOLOGY:

Please turn cell phones off and please do not text during class as it is disruptive and takes away from the focus of the class. Inadvertently, we all forget to turn them off and that's okay. If for some reason you need to have your cell phone on, please let me know prior to class.

The EMU MA in Counseling program, in accordance with a national professional conversation about the use of technology in counselor education, is supporting a return to engagement and paper notebooks. As we are in the profession of presence and attunement, we want to be intentional about how we address this in our classes. Therefore, we will ask that you keep your phone and your computer/iPad in your bag, unless you are required to use it in class. We have been reading and researching about the impact of technology on the brain related to social engagement and learning, in addition to the strong correlation between writing and learning. We wish to promote an embodied learning and discovery experience and can only be successful to do so in a context that minimizes disruption and interruption. We recognize there will be times when access to a phone is necessary and want to encourage advanced planning and communication with faculty.

PROFESSIONAL BEHAVIOR

Attendance Due to the interactive nature of this training experience, students are required to attend and actively participate in ALL supervision sessions. Students who anticipate missing internship class or are experiencing difficulties meeting with their site supervisor should contact their faculty supervisor immediately. Supervision is an essential element of the internship experience. Students who miss an internship class or supervision are not able to count internship hours for that week.

Participation. Your full participation is requested. Role-plays and discussion are integral components of this class and require your attention and presence. You are expected to demonstrate a professional attitude and participate in a way that is respectful of yourself and others.

During this course, as a student, a future counselor, and as a person, you will be exposed to various sensitive/challenging topics, discussions, videos and other material that will require you to do some personal exploration/evaluation. You are also encouraged to share your personal views and experiences with class/group members, and disclose some personal information if you wish to do so. Your contributions may involve personal challenge and risk, may create discomfort and a sense of vulnerability. In essence, there is risk involved in being a class/group member. It is the same risk and vulnerability that we as facilitators will embrace as members of this class. I see this personal exploration and process as an essential component of your education and your personal growth and also recognize the potential for others to grow as professionals and as human beings.

I have attempted to choose the materials, speakers, texts, and readings for this course very carefully and professionally. However, we cannot control who will be personally offended or uncomfortable with what is presented. If you feel any discomfort, you may always bring it up to the group to be evaluated or with us outside of class. You may also choose to stay silent or leave the classroom environment. However, I encourage you to evaluate your discomfort and face the challenging issues for your personal and/or professional growth. Practicing being immediate has the potential to enlighten those around you, as well as yourself, in addition to informing your future work as a clinician.

GRADING CRITERIA AND OTHER POLICIES:

The Master of Arts in Counseling faculty support students in actively engaging their academic and applied work throughout their training, valuing this as a core professionalism skill. Students should be aware that graduate university policy allows two C grades before being dismissed from the program.

1. Professional Development (see form) – 8 hours required

Students are required to attend 8 hours of professional development to include workshops, conferences or trainings, in addition to joining a professional organization. Students may join as many organizations as desired, but one of them must offer liability insurance. (Both ACA and AMHCA offer this insurance.) Opportunities will be discussed in class. **Fill out the Verification of Professional Organization form and submit to Amanda.**

2. Library Orientation

Students will be expected to meet as a class with Jennifer Ulrich, Librarian at Hartzler Library, who will offer an orientation and guidance with research and resources.

3. The Counselor Within Reflection and Collage

See questions below. Create a collage depicting your thoughts and reflections using images, pictures, drawings, symbols, etc. Write a brief (1-2 page) reflection to accompany your collage (see description below). You will be invited to share both your written and your creative reflections.

This 1-2 page statement (*informal writing, APA not required*) should outline your **inner motivations** for choosing the counseling field and your **professional goals**. Answer the following questions as you write.

1. What cultural identities, values, and experiences led you to consider a career in counseling?
2. What are your thoughts about how people change?
3. What counseling settings and or populations think you are interested in serving? Why?
4. What skills do you believe you already possess that will help you in this field? What skills do you hope to gain from this program?
5. What are your expectations for yourself as a counselor?
6. What are your expectations for your clients?
7. What do you hope will be the outcome of your work with clients?
8. What challenges do you foresee yourself dealing with in the counselor role?
9. What would being successful as a counselor look like?
10. In your opinion, how is counseling effective?

4. Interview of Counseling Professional

Students will interview in person (face-to-face) a mental health professional (**LPC or Resident in Counseling required**) about the role of professionals, changes and important clinical, practical, and ethical issues within the field. (*See attached Interview Protocol and writing instructions*).

You are to write a reaction paper to the interviews, indicating issues that raised awareness for you about the counseling profession, training, the role of the counselor, and current issues within the field. The paper should reflect your awareness of the profession and role as a counselor as opposed to a summary of the interview. We cannot stress enough how important it is not to offer a summary of the interview but your reaction to it. We are looking for your “inner dialogue” of the interviews. You may discuss the interviews but mostly in context of your reaction to the responses. Please do include the questions from the Interview protocol and any additional questions you created/posed.

You should obtain informed consent from the professionals you are interviewing and submit the signed forms to the professor with your assignment. A contract is included in the syllabus for your use.

All of the questions listed in Interview Protocol should be addressed both in the interview and in the paper. Length of paper should be 5-7 pages, should be proofread, and have minimal APA and grammatical errors.

University Policies

- **Writing Guidelines:**

Writing will be a factor in evaluation: EMU has adopted a set of writing guidelines for graduate programs that include four sets of criteria: content, structure, conventions and style (see below). It is expected that graduates will be able to write at least a “good” level with 60% writing at an “excellent” level. All written work must conform to APA writing style standards.

- **Academic Integrity Policy (AIP):**

Good academic work must be based on honesty. The attempt of any student to present as his/her own work, that which he or she has not produced, is regarded by the faculty and administration as a serious offense. Students are considered to have cheated, for example, if they copy the work of another, or use unauthorized notes or aides during an examination or turn in their own paper or an assignment written, in whole or in part, by someone else. Students are guilty of plagiarism, intentionally or not, if they copy material from books, magazines, or other sources without identifying and acknowledging those sources or if they paraphrase ideas from such sources without acknowledging them. Students guilty of, or assisting others in cheating or plagiarism on any assignment, quiz, or examination may receive a grade of F for the course involved and a report of this incident will be filed in the dean’s office. Repeated violations will invoke a disciplinary process.

- **Turnitin:**

Students are accountable for the integrity of the work they submit. Thus, you should be familiar with EMU’s Academic Integrity Policy (see above) in order to meet the academic expectations concerning appropriate documentation of sources. In addition, EMU is using Turnitin, a learning tool and plagiarism prevention system. For more information about or to watch a demo of Turnitin, please see: http://turnitin.com/en_us/features/demos.

- **Moodle:**

Moodle is the online learning platform that EMU has chosen to provide to faculty, administrators and students. Students will have access to course information within Moodle for any class they are registered for in a given term. The amount of time a student has access to information before and after the class is somewhat dependent on the access given to students by the individual faculty member. However, please note that courses are not in Moodle permanently – after two years the class is no longer accessible. Please be sure to download resources from Moodle that you wish to have ongoing access to.

- **Academic Support Center**

If you have a physical, psychological, medical or learning disability that may impact your work in this course, it is your responsibility to contact Office of Academic Access on the third floor of the Hartzler library, 540-432-4233. They will work with you to establish eligibility and to coordinate reasonable accommodations. All information and documentation is treated confidentially. <http://emu.edu/academics/access/>

Please refer to the Student Handbook, which can be found at <http://www.emu.edu/studentlife/student-handbook/> for additional policies, information, and resources available to you.

- **Institutional Review Board:**

All research conducted by or on EMU faculty, staff or students must be reviewed by the Institutional Review Board to assure participant safety: <http://www.emu.edu/irb/>.

The IRB requires all researchers submitting proposals to complete the online researcher training provided by NIH (the website requires the establishment of a no-cost account). This

training covers basic concepts, principles, and issues related to the protection of research participants. When training is successfully completed, the researcher will receive a certificate. This certificate should be saved (as an image or pdf file) and kept on file – proof of training is required when submitting an IRB proposal."

- **Graduate Writing Center:**

Please take advantage of the free individual tutoring from graduate student tutors (see <http://www.emu.edu/writing-program/> for more information). To make an appointment, please access ASC Tutoring through the myEMU portal: <https://emu.mywconline.com/index.php>. See Academic Program Coordinator for more information about available services and tutoring times.

- **Course Extensions and Outstanding Grades:**

For fall and spring semesters, all coursework is due by the end of the semester. If a student will not be able to complete a course on time, the student must submit a request one week before the end of the semester for an extension (up to 6 months), by emailing the instructor, academic advisor and the Academic Program Coordinator. If the request is granted the student will receive an "I (incomplete) for the course which will later be replaced by a final grade when the work has been turned in on the agreed upon date. If the request for an extension is denied, the student will receive a grade for the work that has been completed up until the time the course was expected to have been completed. If no work has been submitted, the final grade will be an F (or W under unusual circumstances and with permission of the Program Director). Extensions will be given only for legitimate and unusual situations. Extensions are contracted by the student with the program for up to a maximum of 6 months after the deadline for the course work.

PLEASE NOTE: If the outstanding course work is received within the first 6 weeks of the extension, no grade reduction will be imposed; after 6 weeks any outstanding coursework will be reduced by ½ letter grade. If the extension deadline is not met, the student will receive a final grade based on the work completed.

- **Title IX:**

The following policy applies to any incidents that occur (on or off campus) while you are a student registered at EMU. It does not apply if you are talking about incidents that happened prior your enrollment at EMU. It is important for you to know that all faculty members are required to report known or alleged incidents of sexual violence (including sexual assault, domestic/relationship violence, stalking). That means that faculty cannot keep information about sexual violence confidential if you share that information with them. For example, if you inform a faculty member of an issue of sexual harassment, sexual assault, or discrimination he/she will keep the information as private as he/she can, but is required to bring it to the attention of the institution's Title IX Coordinator.

If you would like to talk to this office directly, Rachel Roth Sawatzky, Title IX Coordinator, can be reached at 540-432-4849 or rachel.roth.sawatzky@emu.edu. Additionally, you can also report incidents or complaints through our online portal at <http://emu.edu/safecampus/>. You may report, confidentially, incidents of sexual violence if you speak to Counseling Services counselors, Campus Ministries' pastors, and Health Services personnel providing clinical care. These individuals, as well as the Title IX Coordinator can provide you with information on both internal and external support resources.
