COURSE DESCRIPTION:

Whether working in advocacy, healthcare, education, government, care-giving, activism, or in any kind of leadership or community building capacity, stressors add up - particularly in this pandemic. Research and experience demonstrate that unaddressed trauma often leads to conflict and violence against self or with others, as trauma-affected people act out against others or become self-destructive. STAR combines theory with experiential learning to increase awareness of the impacts of trauma on the body, brain, beliefs and behaviors. The course offers tools for addressing trauma and breaking cycles of violence.

STAR's multi-disciplinary framework draws on several fields of theory and practice to support healthy, resilient individuals and communities: trauma and resilience studies (including neurobiology), restorative justice, conflict transformation, human security, and spirituality. STAR centers participants' experience and insights, while offering activities, resources, and a theoretical model to support a journey toward understanding and interrupting cycles of violence at the individual, communal and societal levels.

COURSE GOALS AND OBJECTIVES:

This course invites participants to:

- Explore and share **language and resources about resilience and trauma** - definitions, causes/origins, diverse impacts on body, brain, beliefs and behaviors.
- Understand how **trauma response can contribute to cycles of violence** at different levels: self, relationships, organizations, communities, nations, the Earth.
- Identify and practice tools and **strategies to strengthen resilience and break free from cycles of violence** at personal and collective levels.
- **Deepen commitment to self-care and collective care** as core practices for (re)generating healthy power amidst vulnerability and uncertainty.

REQUIRED TEXTS AND OTHER RESOURCES:

The following are reading materials and texts, required for all participants taking the course for credit. Note that non-credit participants are strongly encouraged to read the required texts as well.

REQUIRED ASSIGNMENTS:

Engaging in a course focused on trauma, whether for academic credit or for training purposes, can be challenging. We invite all participants to

- **Show up to all sessions, as the learning is designed as a cumulative and iterative and community-based experience.** We value your presence and insights. For optimal learning, we would discourage missing any sessions. If you need to miss, please alert the instructors in advance. We would also encourage you to connect with another class participant about what went on in class, before the next session.
- **Commit to ongoing self-care during the 5 weeks.** We will take time in the first sessions of the course to discuss what kind of commitments make sense for us as individuals and as a community.
- **Identify and lean on your resilience network.** We will take time early in the course to identify who are some of the resource people you might lean on as you take the STAR learning journey.

Taking the course for Professional Education/Training

Homework assignments are designed to complement and enhance the synchronous (in-person) course experience. These will be assigned each week in class (with assignment details also available on Moodle). These are not required of training participants, though you may find they enrich your experience. If you choose to do the assignments, they are just for you – no need to submit to instructor.

Taking the course for Credit

Note that assignments are designed to enhance the learning experience you get in the synchronous class sessions.

Please show up to all sessions of class. Presence in class will account for 40% of your grade.

Presentation portions of class will be recorded, but much of the learning happens in the exchanges among participants, and most of that will not be recorded.

2-credit students: Small assignments below add up to 60% of your grade. There is no final project.

3-credit students: In addition to assignments below (44% of your grade), there is a final project due (16% of your grade, also listed below). You may choose one of the options listed below or design your own final project.

Assignment	Due date/ do date	2 credit students (% of grade)	3 credit students (% of grade)

SUPPLEMENTAL INFORMATION FOR COURSE SYLLABI:

Last reviewed August 2021

Writing Guidelines:

Writing will be a factor in evaluation: EMU has adopted a set of [writing guidelines](#) for graduate programs that include six sets of criteria: content, structure, rhetoric & style, information literacy, source integrity, and conventions (see page 3). It is expected that graduates will be able to write at least a “good” level with 60% writing at an “excellent” level. For the course papers, please follow the APA style described in CJP’s *GUIDELINES for GRADUATE PAPERS* (see CJP Student Resources Moodle page or request a copy from the Academic Program Coordinator), unless directed otherwise by the instructor. Criteria for Evaluating Arts-Based Peacebuilding Projects can be found at the end of this document.

Academic Accountability & Integrity:

EMU faculty and staff care about the integrity of their own work and the work of their students. They create assignments that promote interpretative thinking and work intentionally with students during the learning process. Honesty, trust, fairness, respect, and responsibility are characteristics of a community that is active in loving mercy and doing justice. EMU defines plagiarism as occurring when a person presents as one’s own someone else’s language, ideas, or other original (not common-knowledge) material without acknowledging its source (Adapted from the Council of Writing Program Administrators). This course will apply [EMU’s Academic Accountability Policy](#) to any events of academic dishonesty. If you have doubts about what is appropriate, [Indiana University’s Plagiarism Tutorials and Tests](#) may be a useful resource.

Turnitin:

Students are accountable for the integrity of the work they submit. Thus, you should be familiar with EMU’s Academic Integrity Policy (see above) in order to meet the academic expectations concerning appropriate documentation of sources. In addition, EMU is using [Turnitin](#), a learning tool and plagiarism prevention system. For CJP classes, you may be asked to submit your papers to Turnitin from Moodle.

Moodle:

[Moodle](#) is the online learning platform that EMU has chosen to provide to faculty, administrators and students. Students will have access to course information within Moodle for any class they are registered for in a given term. The amount of time a student has access to information before and after the class is somewhat dependent on the access given to students by the individual faculty member. However, please note that courses are not in Moodle permanently – after three years the class will no longer be accessible. Please be sure to download resources from Moodle that you wish to have ongoing access to.

Technology Requirements and Communication/Zoom Best Practices:

Communication will largely be accomplished via the Moodle platform utilized by EMU and your EMU email. Check both frequently during the semester. [Zoom](#) will be used for synchronous online course sessions. Please review these [best practices](#) for online classes!

Graduate & Professional Studies Writing Center:

Please utilize the [writing program](#)! They offer free individual sessions with a graduate student writing coach. Please visit the website to schedule an appointment or request additional information from CJP's Academic Program Coordinator.

Institutional Review Board (IRB):

All research conducted by or on EMU faculty, staff or students must be reviewed by the [Institutional Review Board](#) to assure participant safety.

Grading Scale & Feedback:

In most courses *grades* will be based on an accumulation of numerical points that will be converted to a letter grade at the end of the course (several CJP courses are graded pass/fail). Assignments will receive a score expressed as a fraction, with the points received over the total points possible (e.g. 18/20). The following is the basic scale used for evaluation. *Points may be subtracted for missed deadlines.*

95-100 = A outstanding	90-94 = A- excellent	85-89 = B+ very good
80-84 = B good	76-79 = B- satisfactory	73-75 = C+ passing
70-72 = C unsatisfactory	Below 70 = F failing	

Graduate students are expected to earn A's & B's. A GPA of 3.0 for MA students and 2.75 for GC students is the minimum requirement for graduation.

Regarding feedback on papers/projects: Students can expect to receive papers/assignments back in a class with faculty feedback before the next paper/assignment is due. This commitment from faculty assumes that the student has turned the paper in on the agreed upon due date.

Library

The [Hartzler Library](#) offers research support (via e-mail, chat, phone, or SSC campus) and the library home page offers subject guides to help start your research. The library can help you acquire resources not held by EMU through the Interlibrary Loan (ILL) system. The link to ILL is on the left side of the library homepage.

Office of Academic Access:

If you have a physical, psychological, medical or learning disability that may impact your work in this course, it is your responsibility to contact the [Office of Academic Access](#). They will work with you to establish eligibility and to coordinate reasonable accommodations. All information and documentation is treated confidentially.

Class Attendance (for in-person and synchronous online courses):

Students are expected to attend all class meetings. If unusual or emergency circumstances prevent class attendance, the student should notify the professor in advance if possible. Multiple absences from class will result in lower grades. The student is responsible for the material presented in classes missed (from EMU Graduate Catalog). Students should be aware of the importance of regular class attendance, particularly in the case of CJP classes that only meet once a week or over several weekends. Being absent for more than one class leads to a student missing a large portion of the class content. In addition to consistent class attendance, students should make every effort to arrive to class on time out of respect for the learning process, fellow students and faculty.

Religious Holidays

EMU respects the diversity of religious holidays and wishes to provide reasonable accommodations for students who may be unable to fully participate in class, lab, exams, or other assignments due to observation of a significant religious holiday. Students should provide adequate notice (a week in advance) to the faculty of such requests.

Student Health & COVID-19

As Eastern Mennonite University monitors the emerging variants of Covid, students who are attending classes *in-person* must adhere to the university's protocol in regard to the pandemic. Students can find more information about EMU's current and past pandemic protocols at <https://emu.edu/coronavirus/>. You will also receive emails from university as decisions involving student wellbeing and safety in relation to the virus are made. Please note that during the school year, EMU Health Services is open and available for in-person full-time students to seek medical advice and treatment (and part-time students who choose to fill out the health form in order to access services). To learn more about the services available, and how to schedule an appointment, go to <https://emu.edu/studentlife/health/>.

Classroom Culture & Related Policies

EMU's [Life Together](#) statement describes the sort of learning community that we aspire to be. Learning thrives where there is free and open exchange of ideas, thoughts, emotions, and convictions. Open discourse requires trust and safety. While I anticipate that you may find that some aspects of the class challenge your views and theoretical frameworks, I invite you to respectfully express either agreement or disagreement without fear of consequences. If you feel that I am violating this commitment, please make an appointment to meet outside of class so that we can discuss the issue.

I hope we can welcome differences and demonstrate a willingness to analyze issues from frameworks that may or may not feel comfortable. I have opinions, which I may express from time to time. Please be sensitive in your class participation by not unfairly dominating discussions. Be aware of others' right to speak and welcome questions from your classmates. My goal is to create a brave space in which everyone learns to participate in scholarly dialogue that values listening, thinking, feeling, study, and professionalism. *(Adapted from Margaret Sallee and Kathryn Roulston)*

1. Our primary commitment is to learn from each other. We will listen to each other and not talk at each other. We welcome differences amongst us in backgrounds, skills, interests, and values. We realize that it is these very differences that will increase our awareness and understanding through this process.
2. We will trust that people are always doing the best they can.
3. Challenge the idea and not the person. We debate ideas, not the individual sharing this idea or practice.
4. Each of us will strive to speak our discomfort. When something is bothering you, please practice sharing this with the group. Often our emotional reactions offer valuable learning opportunities.
5. Step Up, Step Back. Be mindful of taking up much more space than others. On the same note, empower yourself to speak up when others are dominating the conversation.
6. Stay engaged. When overwhelmed or stressed, it can be tempting to slip away from the class or group while meeting. Let us honor one another with focused connection. When we catch ourselves disengaging, let us gently refocus on the tasks at hand.

Course Extensions and Outstanding Grades:

For fall and spring semesters, all coursework is due by the end of the semester. If a student will not be able to complete a course on time, the student must submit a request one week before the end of the semester for an extension (up to 6 months), by emailing the instructor, academic advisor and the Academic Program Coordinator. If the request is granted the student will receive an "I (incomplete) for

the course which will later be replaced by a final grade when the work has been turned in on the agreed upon date. If the request for an extension is denied, the student will receive a grade for the work that has been completed up until the time the course was expected to have been completed. If no work has been submitted, the final grade will be an F (or W under unusual circumstances and with permission of the Program Director). Extensions will be given only for legitimate and unusual situations. Extensions are contracted by the student with the program for up to a maximum of 6 months after the deadline for the course work. *PLEASE NOTE: Grades for coursework submitted late may be reduced at the instructor's discretion and in line with their course policy on turning in coursework after the due date. If the extension deadline is not met, the instructor will submit the final grade based on what has been received to date.*

Inclusive, Community-Creating Language Policy:

Eastern Mennonite University expects all its faculty, staff, and students to adopt [inclusive written and spoken language](#) that welcomes everyone regardless of race or ethnicity, gender, disabilities, age, and sexual orientation. We will use respectful and welcoming language in all our official departmental documents and correspondence, including those put forth by way of Internet communication, and throughout all academic coursework, inclusive of classroom presentations and conversations, course syllabi, and both written and oral student assessment materials.

As an inclusive community, we strive to sustain safety and belonging for students of all gender and sexual identities expressed in the [LGBTQIA+ Student Support Policy](#).

Bias Response:

Bias incidents are harmful to the EMU community and/or individuals within the EMU community. Bias can be intentional or unintentional and may be directed toward an individual or group. A bias incident may take the form of a verbal interaction, cyber-interaction, physical interaction, or interaction with property. Bias reporting is a resource for anyone who needs to communicate an incident or explore a better understanding around issues of discrimination and learning how to effectively respond. All members of the university community are encouraged to [report](#) incidents of bias.

Title IX:

The following policy applies to any incidents that occur (on or off campus or online) while you are a student registered at EMU. It does not apply if you are talking about incidents that happened prior your enrollment at EMU. It is important for you to know that all faculty and staff members are required to report known or alleged incidents of sexual violence (including sexual assault, domestic/relationship violence, stalking). That means that faculty and staff members cannot keep information about sexual violence confidential if you share that information with them. For example, if you inform a faculty or staff member of an issue of sexual harassment, sexual assault, or discrimination they will keep the information as private as they can, but is required to bring it to the attention of the institution's [Title IX Coordinator](#). You can also report incidents or complaints through the [online portal](#). You may report, confidentially, incidents of sexual violence if you speak to Counseling Services counselors, Campus Ministries' pastors, or Health Services personnel providing clinical care. These individuals, as well as the Title IX Coordinator, can provide you with information on both internal & external support resources.

Please refer to the [Graduate & Seminary Student Handbook](#) for additional policies, information, and resources available to you.

Academic Program Policies: For EMU graduate program policies and more CJP-specific graduate program policies, please see the complete [Graduate Catalog](#).

Criteria for Evaluating Arts-Based Peacebuilding Projects

Background notes:

- Arts approaches can be used in several different stages of a project:
 1. To gain or create knowledge. (For example, research “subjects” or participants might be engaged in an arts-based project as a way of soliciting information or encouraging insight.)
 2. To add complexity or nuance to created knowledge. (For example, an arts practice may serve as one method in a multi-method research project, creating an integrated, reflective methodology for the project. Alternatively, an arts practice could be used to analyze and/or interpret data collected by conventional methods.)
 3. To test knowledge. (For example, researchers might verify their interpretation of findings from a more traditional research process by creating a play or exhibit and testing it for resonance with their subjects.)
 4. To share findings. (For example, a play or exhibit might be created to (re)-present data collected or analyzed via conventional methods in order to impart the particular kinds of meaning the researcher considers important, and as a way to reach and engage a broader audience.)
 5. As a form of intervention. (For example, a project might be designed to raise awareness of an issue or conflict, to promote dialogue on a contested issue, or to advocate for a cause.)
- Arts-based products often do not specify methodologies used. Thus it may be important for a project to be accompanied by a short paper discussing analysis, theory of change, audience, goals, and methods used.
- Patricia Leavy, in *“Method Meets Art: Arts-based Research Practice”* (New York: Guilford Press) 2009, argues that “[t]raditional conceptions of validity and reliability, which developed out of positivism, are inappropriate for evaluating artistic inquiry.” (p. 15). She suggests that authenticity, trustworthiness, and validity can be assessed through attention to such elements as aesthetics, resonance, and vigor.
- For a discussion of standards, see “Method Meets Art” (Leavy, 2009: 15ff and Chapter 8).
