North American Residency

Typically, each cohort will begin with a long weekend at one of the partner schools. This time will serve as an orientation to the program and allow time for students to get to know one another. Students will begin their first course during this residency, MBA 522 Leadership and Management for the Common Good.

International Residency

One of our program's core values is **global citizenship**. We believe that organizations today are interdependent and mutually accountable to local, national, and global communities. As a result, we believe in interdisciplinary, cross-cultural, and interfaith engagement. To that end, a global perspective is important for today's business and organizational leaders. This one-week international residency not only provides students with a global perspective but also a context in an on-going case study for the entire MBA curriculum. In addition, this residency is also a resume enhancing, hands-on experience that provides perspective for students' day-to-day work and their development as leaders in their organization.
